3. COMPOSITION / INFORMATION ON HAZARDOUS INGREDIENTS

Component	CAS-No.	Concentration
Vinyl Acetate	108-05-4	Less than 0.50%
Methanol	67-56-1	Less than 0.20%

4. FIRST AID MEASURES

First aid procedures

Eye contact	If product contacts eye, flush with water for at least 15 minutes and seek medical attention immediately.
Skin contact	If product contacts skin, wash affected area with soap and water. Seek medical attention if irritation develops or persists. Launder contaminated clothing before reuse.
Inhalation	Move subject to fresh air in case of accidental inhalation of vapors or decomposition products. If symptoms persist, get medical attention promptly.
Ingestion	If ingested, get immediate medical attention. Do not induce vomiting unless instructed to do so by medical personnel. Never give anything by mouth to victim who is unconscious or is having convulsions.

5. FIRE FIGHTING MEASURES

Hazardous combustion products

Incomplete combustion can yield carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

Extinguishing media

Suitable extinguishing media	Dry chemical, CO ₂ , water spray or regular foam. Avoid using a direct stream of water.
Fire fighting equipment/instructions	Firefighters should wear full protective clothing including self contained breathing apparatus.
Dust explosion hazard	None Known
Sensitivity to static discharge	None Known
Unusual fire & explosion hazards	There is the possibility of pressure buildup in closed containers when heated. Water spray may be used to cool the containers/
Flash point	Non flammable

6. ACCIDENTAL RELEASE MEASURES

Emergency action	Wear appropriate protective equipment and clothing during clean-up. Follow all Local, State, Federal and Provincial regulations for disposal.
Containment procedures	Isolate spill area. Stop discharge if safe to do so. Dike, if necessary, contain spill with inert absorbent. Collect and contain for salvage or disposal. Keep spilled product from contaminating soil or from entering sewers, watersheds or water streams.
Reporting	See Federal reporting requirements listed in Section 15. We recommend you contact local authorities to determine if there may be other local reporting requirements.

7. HANDLING AND STORAGE

For Commercial Use Only - Not Packaged or Labeled for Home Use!

Handling	Avoid contact with skin and eyes. Wash thoroughly after handling. Avoid breathing fumes if this product is used at high temperatures. Use this product with adequate ventilation.
Storage	Protect from freezing – product stability may be affected.
Empty container precaution	Attention! Follow label warnings even after container is emptied since empty containers may retain product residues. In storage, monomer vapors will migrate from the emulsion and establish an equilibrium between the headspace in the storage container and the liquid emulsion. Levels in excess of acceptable exposures can accumulate in non-vented headspaces above the emulsion. All procedures appropriate for a confined space entry should be completed prior to performing any work in a bulk storage tank. Do not reuse empty container without professional cleaning for food, clothing, or products for human or animal consumption, or where skin contact can occur.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limit(s) Exposure limits are listed below, if they exist

Component	Regulation	Type of Listing	Value
Vinyl Acetate monomer	ACGIH	TLV	15 ppm
	ACGIH	TWA	10 ppm
	OSHA	STEL	20 ppm
Methanol	ACGIH TLV	TWA	200 ppm
		STEL	250 ppm
	OSHA PEL	TWA	200 ppm
			260 mg/m ³

Engineering controls Ventilation should be sufficient to effectively remove and prevent buildup of any dusts or fumes that may be generated during handling or thermal processing.

Safety Glasses

Gloves

Personal protective equipment

Eye protection Wear safety glasses to reduce the potential for eye contact. Chemical safety goggles are appropriate if splashing is likely. Have eye washes available where eye contact can occur.

Skin and body Protection Prevent prolonged or repeated contact by using rubber gloves and appropriate protective clothing. Launder contaminated clothing before reuse.

Respiratory Protection Not normally required. **When fumes are generated and ventilation is not sufficient to effectively remove them, appropriate NIOSH/MSHA approved respiratory protection must be provided.**

General Eye wash fountain and emergency showers are recommended.
