

Nail Base

SBS Modified Bitumen Base Sheet

The Right Choice for Low-Slope Roofing Products

800-786-1492 • mulehide.com

Rugged • Time-Tested • Weather-Tested

NAIL BASE

A premium fiberglass reinforced, SBS (elastomeric) modified bitumen membrane manufactured to meet the toughest industry and code requirements. Nail Base is manufactured with a Styrene Butadiene Styrene (SBS) modified asphalt compound that exhibits exceptional waterproofing and weathering properties. Nail Base is finished with a polyolefin film with printed lay lines on the top surface.

BASIC USES

Nail Base membranes are designed for mechanical attachment. Applications include new roofing, recover (retrofit) and BUR repairs. This system must be installed over an acceptable roof deck, roof insulation, or other suitable substrate. Nail Base can be used as a mechanically attached base sheet in self-adhered or torch applied systems. See the Mule-Hide Modified Bitumen Application Guidelines for complete specifications and details.

PRODUCT BENEFITS

- Durable - high performance fiberglass reinforcement mat.
- No hot asphalt, fumes or flames required for installation.
- Offers low-temp flexibility, puncture and tear resistance.
- May be used with self-adhered or torch applied systems.
