## KOOLCAP® TOUCH UP

### PRODUCT DESCRIPTION

KoolCap® Touch Up is a highly reflective coating specially designed for use with our KoolCap® G membranes. It is bright white in color and is designed to help extend the life and enhance the performance of KoolCap roofing system. KoolCap Touch Up is a water based product and environmentally friendly.

### BASIC USES

KoolCap Touch Up is used address installation and system repair needs of KoolCap G membranes. Used for a variety of applications including: touch-up of flashing details, coat standard granules used at seam bleed-out, coat granules used at repairs and other instances to make repairs blend into the KoolCap G membrane. KoolCap Touch Up has a reflectivity of greater than 74% and is also used to enhance granule retention, improve abrasion resistance and scuff resistance.

### PRODUCT DATA\*

Coverage (approximate) ..... 1 gal / 500 square feet @ 2 mils  
Weight ..... 11 lbs / gal  
Packaging (approximate) ..... 1 gal can or 5 gal pail  
Color ..... White

\*Typical properties and characteristics are based on samples tested and are not guaranteed for all samples of this product. This data and information is intended as a guide and does not reflect the specification or specification range for any particular property of this product.

### INSTALLATION TEMPERATURE

Adhesive is designed to be applied when ambient temperature is 40°F (4°C) and rising. Do not apply if ambient temperature will drop below 32°F (0°C) before adhesive completely dries.

DO NOT ALLOW PRODUCT TO FREEZE. Frozen product is un-usable and must be discarded.

### INSTALLATION INSTRUCTIONS

1. Surfaces to be coated must be clean, smooth, dry and free of loose and foreign material
2. Mix KoolCap Touch Up thoroughly scraping the sides and bottom of the can (minimum of 5 minutes is required) until coating is uniform in color.
3. KoolCap Touch Up is designed to be spray applied over the roofing surface. The viscosity, solids and overall formulation has been optimized for application over the uneven roofing surface.
4. KoolCap Touch Up can be applied using wide range of methods, including: conventional airless (or air-assist) sprayers, brush or roller.
5. Normal spray touch-up alongside and end laps with be approximately 20 to 25 rolls of membrane when applied at a thickness of 2 mils (50 microns) dry film thickness. A thicker application rate will reduce the coverage rate.

### CLEAN UP

Wet material can be removed with soap and water.

### STORAGE & HANDLING

Job site storage in excess of 90°F (32°C) may affect product shelf life. DO NOT ALLOW KoolCap® Touch Up to FREEZE. Do not store below 40°F.
