

Product Data Sheet TPO Breather Vent

Description:

TPO Breather Vents are prefabricated two-way, or static vents that allow for ventilation of attic spaces below TPO membranes. The reinforced membrane flange allows for quick installation by centering vent over opening and welding to the field membrane.

Features and Benefits:

- Fabricated with a membrane skirt completed in the factory.
- Standard diameter is 4" round configurations.
- Incorporating a 6" skirt and factory fabricated pipe wrap, these vents reduce installation time.
- Available in:
 - White, Tan, and Gray as standard colors
 - Medium Bronze, Patina Green, Rock Brown, Slate Gray, and Terra Cotta as Colorway options
- 4" Diameter with 12 square inches of net free area when the two way vent is used.

Contact Mule-Hide to request a color chart, samples and information regarding colorway options.

Installation:

1. Install in accordance with Mule-Hide standard flashing details.
2. Any deviation from the requirements set forth in the detail drawings must be pre-approved, in writing, by the Mule-Hide Technical Department.

Warranty:

Mule-Hide metal accessories are eligible for warranty coverage when properly installed as part of a Standard or Premium warrantable system. Please visit our Web site or call us for more information.
